

Welcome to our latest catalogue

The products found within this book have been carefully selected and brought to you from U.K. and worldwide sources.

Quality floor matting is essential to cut down on the need of frequent, costly mat replacement and to maintain a smart appearance. There has also never been a time of more attention being paid to Health and Safety in the work place.

This is where we come in. Our high quality and long lasting matting ranges cover the vast needs in industry, retailing, leisure, offices etc, all at competitive prices. We are confident you will find what you require, but if not, please ask.

NOTE: Matting sizes quoted are nominal.

Customer is responsible for determining the suitability of any product for the designed application.

The reproduction of colours in this catalogue is as accurate as photographic printing processes allow.

Logo Mats

Customised logo mats promote company images and reinforce special messages

- Fully launderable, top quality pile combines with 'Stayput' gripper backing for excellent performance.
- Up to the minute technology ensures accurate colour reproduction and maximum impact.

To order: Just follow these easy steps.

1. State the quantity and size (landscape or portrait) of the mats required and supply a copy of the image or message to be produced. This can be a compliment slip, letterhead or simple sketch.
2. A full colour proof will be submitted for approval.
3. The logo mats are produced - imagination is the only limitation!

Industrial Matting

Cushion Lok™

Heaviest grade of PVC matting, custom built to your requirements

- Built designedly for the most demanding situations, exceeding even the most critical users' expectations.
- Safe for use by wheeled trucks.
- Mats are plastic welded together, ensuring highest possible joint strength.
- Three year warranty against manufacturer's defects.

Depth 22mm.

Versions Available

520HD CUSHION-LOK - HEAVY DUTY

- Perforated to facilitate drainage of spills.
- Weight 15.8kg per m²

522HD CUSHION-LOK HEAVY DUTY WITH GRIP STEP

- Perforated to facilitate drainage of spills.
- With Grip Step abrasive coating.
- Weight 15.8kg per m²

920HD CUSHION-LOK - HEAVY DUTY SOLID

- Closed top.
- Weight 16.2kg per m²

922HD CUSHION-LOK HEAVY DUTY SOLID WITH GRIP STEP

- Closed top.
- With Grip Step abrasive coating.
- Weight 16.2kg per m²

Tiles: 30.48cm x 30.48cm – 1' x 1'
Ramp Edges: 15.24cm x 30.48cm – 6" x 1'
Corner Ramps: 15.24cm x 15.24cm – 6" x 6"

Guide for ordering custom size matting

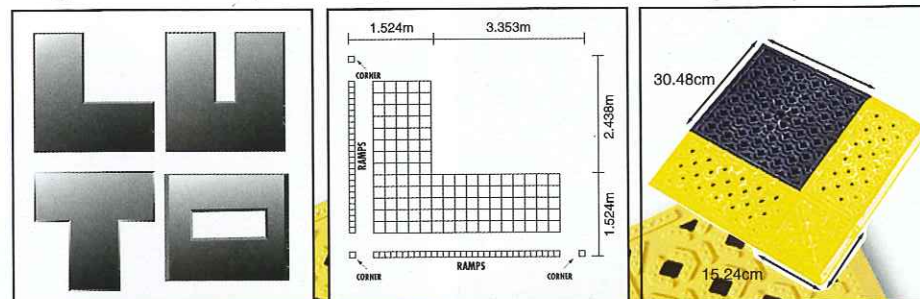

- Each of the Cushion-Lok™ products can be custom-designed for a specific work station (See Figure 1) or used in continuous lengths
- Ramp edges can be specified for any or all sides as desired
- The custom Cushion-Lok™ mat is factory assembled (Extra large mats are made in sections to facilitate shipping and handling)
- To order, provide a simple sketch that illustrates the shape, size dimensions and ramped edges (See Figure 2)
- See Figure 3 for dimensions
- If you plan to add to your custom-designed mat at a later date, please specify when placing original order

SPECIALITY MATTING

ACCESSORIES

Specialist Electrical Matting **Conductive/Anti-Static**

- Stat Zap and Diamond Stat are formulated to absorb static electricity.
- Simple worker tasks – working, walking or even sitting on certain types of stools – creates static electricity.
- Left unchecked, static will pass from the worker to the sensitive equipment, potentially creating damage to computer chips and electric circuitry.
- Conductive/Anti-static matting drains static from the worker thereby safeguarding equipment.

Cushion Stat™

For anti-fatigue and anti-static protection

- Anti-Fatigue Vinyl Sponge matting with pebble surface to aid traction.
- Tested according to EOS/ESD-S4.
- RTG measured at moderate and 12% RH, at 10V and 100V = 10^9 Ohms
- Static properties tested by independent testing laboratory.

Depth 9.4mm **Colour:** Brown.

Recommended Uses: Industrial Light Duty, Assembly Lines, Computer Rooms, Copy Machine Areas, Hospitals.

◆ **Anti-Fatigue**

Diamond Stat™

For anti-fatigue protection in heavy duty areas

- Laminated anti-fatigue mat complete with grounding cord.
- Tough 'Deck Plate' top surface and bevelled edges.
- Durometer: 80+/-005.
- Surface to surface resistance: $9^9 \times 10^9$ Max.Ohm.
- Surface to ground resistance: $7^7 \times 10^9$ Max.Ohm.
- Static properties tested by an independent testing laboratory.

Depth 14.3mm **Colour:** Black.

Recommended Uses: Industrial Heavy Duty, Assembly Lines, Work Stations, CNC Machine Stations.

GROUNDING CORD INCLUDED

Specialist Electrical Matting

Non-Conductive

- Rib Mat Electrical is specially made to provide insulation for the worker.
- The non-conductive mat prevents the worker from being "grounded", thereby preventing electrical shock.

Rib Mat Electrical

Non-conductive, for worker protection from electric shocks

Depth 6mm. Tested to 11,000 volts. Maximum working voltage 450 volts.

Depth 9mm. Tested to BS921/1976.

Tested to 15,000 volts. Maximum working voltage 650 volts.

Recommended Uses: Near Electrical Equipment.

Anti Slip Floor Tapes

Diamond Grip

Tapes promote floor level safety in the workplace

General Purpose

Hardwearing, water, oil and chemical resistant. For general use around factories, stairs, ramps etc. Diamond Grip, with self adhesive backing, is available in rolls, tiles, stair tread cleats or aluminium plates.

Coarse

Tough, diamond hard material for heavy duty use. Available in rolls, stair treads and aluminium plates. Large mineral covering that resists clogging is very suitable for heavy plant and construction equipment.

Aqua Safe

Barefoot comfort with textured vinyl top surface and moisture resistant backing suited for wet areas. Available in rolls, tiles and stair tread cleats.

Clear

For prestigious floor areas where appearance is important. Ideal for floor surfaces such as terrazzo, marble and sealed, non wax wood. Available in rolls, tiles and stair tread cleats.
Note: when used with primer adhesive the appearance is compromised.
