

Insulated Envelopes

Our insulated protective envelopes are an innovative design that protects your product from damage, whether from temperature variation, poor handling or impact. These lightweight envelopes are an ideal way for mail order gourmet food products to reach their destination in perfect condition and temperature. Available in three sizes, the thermal insulated sleeves are ideal for smoked fish, sliced meats, cheeses or other small consignments requiring temperature control.

The Benefits:

- Fast and easy to pack
- Padded sleeve protects from damage in transit
- No need for cartons, tape or band strapping
- Manufactured from 100% recyclable materials
- Fully printable outer surface (depending on quantity)
- Available in three sizes direct from stock

Insulated Envelope Product Range
