

MZC-I AND MZC-II ROTARY VALVES

DMN
WESTINGHOUSE

THE FUTURE STANDARD OF SAFETY, HYGIENE AND CLEANABILITY

Maximize your industry output, while maintaining the highest possible standards of safety, hygiene, and cleanability. With our latest MZC-series rotary valves, you can outperform yourself and your competition on any level.

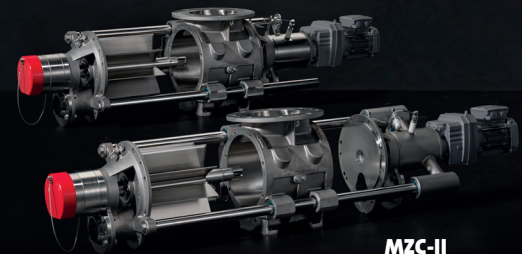

Choose the compact MZC-I for any duty and use its easy-access single opening to keep it clean. Does your industry require the highest possible standards of hygiene? The MZC-II offers you ultimate cleanability through double-sided access to the rotor and valve body. Install the future of safety, hygiene, and cleanability today.

Our MZC-I and MZC-II rotary valves are ATEX and UKCA 'Ex' (UKEX) certified for both dust and gas.
