

# RDS WIN BEST RMD PERFORMANCE AWARD

At RDS we take pride in the suppliers and systems we are involved with and, it's really nice when obtaining recognition for all the hard work our teams put in. We are pleased to announce that RDS has won the prestigious Best RMD Performance award for sales of the super-rugged industrial tablet computers from AAEON. AAEON has a large range of tough tablets ideal for industrial applications such as courier services, warehousing, medical application, and military uses. RDS works hard to supply and support these systems in a wide range of industrial applications. We would like to thank AAEON for the award and are very proud to add it to our collection.

More details regarding our range of rugged AAEON tablets can be found here.

Many thanks again to AAEON for this award.

The RDS team.
