

Pallet Racking Bristol - Case Study - BSE UK

CUSTOMER

Pallet Racking for a global logistics provider who recently opening a new warehouse in Avonmouth, Bristol.

LOCATION

Avonmouth, Bristol

PROJECT BRIEF

*Salesperson: Matt Aldred
matt@bse-uk.co.uk*

To supply and install new heavy duty pallet racking with timber decking and full rack protection system.

PRODUCTS USED

BSE UK supplied and installed 7000mm pallet racking for a logistics client where flexibility was the name of the game. As a logistics provider, the clients' racking needs could change at any time in the future. Adjustable Pallet Racking offered the perfect mix of increased pallet capacity whilst futureproofing for ever changing business needs.

Then New AR Pallet Racking was installed to give the customer **2,000 pallet spaces**, all with open boarded timber decking allowing safe and easy storage of pallets.
