Caro Flow Outlets

Vertical Outlet

Each spigot outlet comes with a body, clamping ring and grating assembly (domical or flat).

Available in four sizes;

50mm, 75mm, 100mm and 150mm.

Refurbishment Outlet

For refurbishment projects where installation is required without disturbing existing pipework, or for new build projects connecting to a variety of pipe types these Carolet outlets ensure a totally watertight junction between an insulated roof area and the drainage pipework. Available to suit both 75mm and 100mm pipework.

Balcony Outlet

Caroflow balcony spigot outlets are designed to allow the unit to be installed against a wall/upstand and the grating.

Available in three sizes;

50mm, 75mm and 100mm.

Roof Outlet

Available in 50mm spigot sizes, the Caroflow Mini Two-Way Threaded outlets are designed for use at the intersection of horizontal and vertical surfaces, i.e. a balcony and parapet wall.

45° Outlet

Each spigot outlet comes with a body, clamping ring and grating assembly (domical or flat).

Available in three sizes;

50mm, 75mm and 100mm.
