

Dakea Roof Windows

Dakea range of roof windows and skylights are incorporated into the design of a roof to allow natural light into the building and are suitable for all applications. By using quality materials and innovative design features, the products offer competitive options to satisfy the demands of modern construction, discerning homeowners, installers and building owners on projects large and small.

Dakea's roof windows open outwards and allow for both light and ventilation, using both manual and remote controls, whilst skylights are only used to allow light, both units are compatible with all common roofing materials come with a guarantee.

All products are manufactured using certified and rigorously selected raw materials to ensure ease of installation, long life and durability and complete weather proofing, to keep the house warm with a minimum of maintenance and by using Comfort glass prevent heat build up thanks to blocking of 95% of UV rays, whilst Noise Blocking technology reduces external noise all at competitive prices and with a 20 year guarantee
