

## Record-Breaking Million-Pound Sales Delivered in June

In a momentous announcement, Grenville Engineering (Stoke-on-Trent) revealed today that they have achieved an extraordinary milestone, with their dedicated team driving them to deliver record-breaking million-pound sales in the month of June. This remarkable achievement serves as a testament to their unwavering commitment to excellence and their steadfast dedication to customer satisfaction.

The astounding success of Grenville Engineering can be attributed to the combined efforts of their exceptional team members who have tirelessly worked towards this momentous goal. Their unwavering commitment, hard work, and expertise have propelled the company to new heights and firmly established them as frontrunners in the industry.

As Grenville Engineering celebrates this momentous occasion, they express their heartfelt gratitude to their valued customers, partners, and supporters who have placed their trust in them and contributed to their remarkable growth. The company recognises that this achievement would not have been possible without their continued support and collaboration.

"We are absolutely thrilled and proud to announce this record-breaking milestone," exclaimed Stuart Rawlinson, Sales Director "It is a testament to the dedication and perseverance of our team, as well as the trust and support of our customers and partners. We owe this success to their unwavering commitment and belief in our company."

The team at Grenville is eagerly looking ahead to the future with great excitement and optimism. This milestone serves as a springboard for even greater accomplishments to come, as they continue to innovate, evolve, and exceed the expectations of their customers.

With a steadfast focus on excellence, Grenville is poised to continue their upward trajectory and solidify their position as a leader in the industry. This extraordinary achievement in June is only the beginning of an inspiring journey. Moreover, with the new investments in robotic welding and the tube laser, Grenville is better equipped than ever to achieve its goals.

Grenville Engineering is a renowned sheet metal fabrication company that specialises in laser cutting, metal punching, sheet metal forming, welding, grinding and finishing and assembly. With their commitment to excellence, they have built a reputation for delivering top-notch solutions and ensuring customer satisfaction. With this record-breaking achievement, Grenville continues to demonstrate their industry leadership and dedication to their customers.
