

Project planning for schools and universities

Here at Furniture for schools we offer besides a wide range of furniture products for schools, academies, universities, nurseries and other institutions, the project planning service.

You can ask as for a free consultation through our website. For the past 25 years we have successfully completed hundreds of installations and would welcome the opportunity to work on your next project.

There are a few elements to consider when it comes to project planning, such as:

1. Deadline for your project
2. Access to materials and workmen
3. Lifts/stairs available
4. Risk assessment to satisfy the health and safety requirements
5. Budget
6. Other details important for the project

When it comes to a project we take into consideration lightening of the space, the position of sockets/switches as well as sinks and storage facilities. We build the sketch of the room and make sure we include all the elements, such as windows, entrances and ask you details regarding the floor area in order to make the best decision regarding your space.

However, if the décor needs to be changed throughout the school year, we will plan accordingly. We take the upmost care in helping you choose fabric colours and style of furniture to suit your requirements, using the extensive range of furniture we have available through our UK and Europe manufacturers.

We take care of everything from furniture design to technical survey and an easy delivery. Call us today at 0345 3 58 59 60 and will be happy to help. Alternatively, get a consultation via email at scott@furnitureforschools.co.uk
