

# Spotlight on our Bristol Office

Bristol has such a vibrant and varied property stock that we felt it was about time we put the spotlight on our South-West team of [commercial surveyors](#).

Our team has been busy carrying out [condition surveys](#), [schedules of condition](#), [dilapidations](#) and [contract administration](#) across the [Bristol](#) region. Projects have taken us from the city centre to Avonmouth, Stoke Gifford, Bath, Clevedon and Weston-super-Mare...and plenty of places in between!

Recent highlights include a [pre-acquisition survey](#) of a [19th century retail unit](#), a terminal schedule of dilapidations for a city centre charity shop, a [specific defect report](#) for a community centre in Eastville and a full structural survey of an office unit in Avonmouth.

Our chartered structural engineers have been contributing to our work in Bristol too, carrying out structural designs and calculations for numerous clients, and supporting our clients and surveyors with in-house advice on structural issues.

For more information about the [services we offer](#) and how we can support you with your next project, drop us an [email](#) or call us on [0117 322 4931](#).
