Multipurpose Lockers

The 'Lockers' are ideal for use in all types of environments including, hospitals, schools, colleges, universities, sports centres and many other industries which have a need for secure storage. They can be sited to effectively utilise available space both indoors and outdoors.

The 'Jumbo Locker' enables the storage of outsize items such as sports and training equipment, cricket and hockey bags, tool boxes, musical instruments and many other items which can normally be found in unsecured area cluttering corridors and store rooms. The 'Large Locker' ensures that valuable out-sized items do not have to be carried around until required.

The two sizes available are: 1250mm deep x 550mm high x 550mm wide (Jumbo) or 700mm deep x 550mm high x 550mm wide (Large) and can be supplied as individual units or in multiple units to bolt together in banks.

All lockers are manufactured in hard wearing polyethylene which will not rust or require painting and are weather and vandal resistant which makes them ideal for outdoor use.

The products can be supplied with different coloured bodies and doors to meet any colour-coded requirements.

The lockers are hygienic and easy to clean and are made from recycled and recyclable material. (All black moulded products are made from 100% recycled material).

The units can be supplied with either a padlock, or an integral keyed handle. Master keys are available with padlock only if required. Keyed handles can be supplied either 'keyed differently' or 'keyed alike' but not with master key.

Cut-away view showing 380 litre Jumbo storage capacity
