Simply Audio Visual

DIGITAL SIGNAGE

We can provide you with a powerful digital signage solution to deliver bespoke, targeted messages to a specific location or business division. Digital Signage allows you to display important information in real time, helping you to get your message in front of your target audience.

You can centrally manage your message on one display, or thousands of displays, in any number of worldwide locations.

Typical sectors that would use digital signage include:

- > Corporate Communications
- > Restaurants, Leisure, Entertainment & Hotels
- > Retail
- > Finance
- > Government
- > Education
- > Transportation
- > Healthcare
- > Automotive Industry

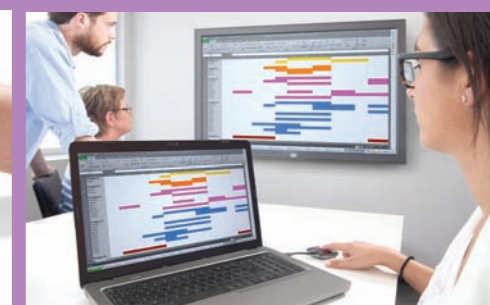

Examples of applications for Digital Signage include:

- > Way finding
- > Menu Boards
- > Point of Sale
- > Advertising
- > Corporate Communications
- > Student Communication Platform in Education
- > Interactive Applications

PRESENT WITH CONFIDENCE

Barco's ClickShare is the answer to issues experienced in meeting and conference rooms by millions of users worldwide. This innovative solution allows multiple presenters to simultaneously connect to the meeting room's display, allowing them to share their laptop content with everyone. No more wires to fiddle with or calls to the IT department to set-up the room, just plug and click wireless simplicity.

PBS is a specialist in designing appropriate Audio Visual solutions for end-user organisations in the public and private sectors.

We can offer a range of products including: projectors, digital displays, audio systems, AV furniture, interactive solutions, digital signage, control systems, monitoring and video conferencing suites and much more.

Expert Advice

- > Comprehensive consultation with the client
- > Systematic planning & design
- > Stringent installation standards & methods
- > Comprehensive product portfolio from world class manufacturers
- > After sales support & maintenance programmes
- > Dedicated Project Manager as a single point of contact

SIMPLY TALK TO US

We can offer you total confidence and peace of mind for all your Audio Visual requirements, large or small. Just give us a call to arrange a meeting at a time that's convenient for you.

CREATE IMPACT WITH YOUR MESSAGES

Using the latest in display technology add the "Wow!" factor to your message, bring content to life and truly engage your audience. Explore the world of Video Wall technology and have a digital canvas that could span several meters.

Taking display technology to the next level, Christie MicroTiles use high end DLP technology to deliver maximum image quality in demanding indoor and high ambient light environments. The tiles can be configured into any shape and size, viewable from any angle and distance. Simply talk to us today.

We have many happy clients, but don't just take our word for it! Here's what one of our satisfied clients had to say about our service:

PBS Office successfully bid for a project to install a bespoke audio visual solution within ten new schools. Again, they have been meticulous in their planning and co-ordination of the work. Throughout the whole process I have been impressed with the professionalism, drive and pro-activeness of the company in their delivery of complex pieces of work.
