

Available now from Ecopac Power 48 volt Dimmable LED Drivers

Ecopac Power's ELED drivers offer unparalleled flexibility in lighting control through mains, DALI (Digital Addressable Lighting Interface), or 1-10 Volt dimming options. Wattages from 100 watts, 200 watts, 300 watts and 360 watts.

Mains Dimming: ELED-100P-48T - ELED-200P-48T - ELED-360P-48T

Mains dimming allows you to regulate the brightness of your LED lighting fixtures directly through standard AC voltage inputs. This straightforward and reliable method enables seamless integration with existing electrical systems, making it a popular choice for retrofit projects and new installations alike.

DALI Dimming: ELED-100-48DP2 - ELED-200-48DP2- ELED-300-48DP2

For those seeking advanced and precise lighting control, our 48 Volt Dimmable LED Drivers support DALI dimming protocols. DALI is a robust digital communication standard that empowers users to individually address and adjust the brightness of each luminaire within a DALI network. This capability is ideal for commercial and architectural lighting applications where fine-tuned illumination is paramount.

1-10 Volt Dimming: ELED-100-48V – ELED-200-48V – ELED-360-48V

The 1-10 Volt dimming option provides a versatile control method using a simple voltage signal to adjust the brightness level of connected luminaires. It is cost-effective, easy to implement, and widely compatible with various control systems, making it a practical choice for a range of lighting scenarios.

Benefits of Ecopac Power 48 Volt Dimmable LED Drivers:

Compatibility: These ELED drivers are designed to work seamlessly with a wide range of 48V LED fixtures.

Flexibility: Choose the dimming method that best suits your project requirements, whether mains, DALI, or 1-10 Volt.

Reliability: Our drivers are built to meet high-quality standards, ensuring long-lasting performance and reliability.

Ecopac Power's ELED range of 48 Volt Dimmable LED Drivers offer a professional, straightforward, and versatile solution for your lighting control needs. Whether you require the simplicity of mains dimming, the precision of DALI, or the flexibility of 1-10 Volt dimming, these drivers provide the tools to create exceptional lighting environments that enhance comfort, efficiency, and aesthetics. Elevate your lighting design with our 48 Volt Dimmable LED Drivers today.

For more detailed information about the ELED range of 48-volt Dimmable Drivers or any of our other products, please do not hesitate to contact us by phone at 01844 204420 or by email at info@ecopacpower.co.uk.
