

**Ecopac Power 60 watt External Power Supply available in 12 and 24 volts, available from stock**

The [ECD-65 series](#) external single output power supply has universal input voltage of 90 – 264VAC and no-load power consumption below 0.1 watts. Manufactured as a Class II unit with fan less and convection cooling this 60 watt external power supply has been designed to operate in temperatures from 0°C to +40°C with efficiencies of up to 88% and a 3-year warranty.

These **Ecopac Power** [ECD-65 series](#) are small and cost effective with 12 volt or 24 volt output, a standard IEC320-C14 input with DOE Level VI Efficiency and comply with global energy efficiency regulations including UKCA, CE, GS/TUV EN62368, UL/CUL 62368-1, CB, FCC, C-Tick, PSE, KC, KCC, CCC Approvals

Applications for the **ECD-65 series** include various types of consumer electronics, telecommunication devices, office facilities, industrial equipment and any kind of application that requires 60 watts output.
