

## Introducing the latest addition to the ELED dimmable driver range **ELED-600-24DP2: 24 volt 600 watt DALI2 and Push Dim LED Driver**

Ecopac Power offers from stock the **ELED-600-24DP2**, a 600 Watt 24 volt constant voltage DALI2 and Push Dim LED Driver designed to provide a smooth and integrated solution for LED lighting systems. With a built-in DALI interface, this innovative 600 watt LED Driver offers unmatched efficiency and control for various lighting applications.

With DALI2 and Push Dim technology, the **ELED-600-24DP2** allows users to easily adjust and control the brightness levels of their lighting system. The DALI2 protocol provides a reliable and standardized interface for controlling lighting systems, while the Push Dim feature allows users to dim their lights with a simple push button.

The **ELED-600-24DP2** is rated for a maximum output of 600 watts, making it ideal for use in a variety of lighting applications, including commercial and residential settings. With advanced protection features including over-voltage protection, over-current protection, and short-circuit protection, to ensure safe and reliable operation.

The **ELED-600-24DP2** reflects Ecopac Power's commitment to providing high-quality, efficient, and reliable lighting solutions to customers. With high efficiency and designed to deliver maximum power while minimizing energy consumption, helping to reduce operating costs and environmental impact.

**We believe this driver will be an excellent choice for a wide range of commercial and industrial applications. Now available from Stock please call 01844 204430 or email [info@ecopacpower.co.uk](mailto:info@ecopacpower.co.uk) for further informatin**
