

We are excited to announce that the **MEAN WELL XLG-320-V-A LED Driver** is now available from stock, providing a versatile and reliable solution for your **LED lighting needs.**

One of the key advantages of the **MEAN WELL XLG-320-V-A** is its dual voltage capability, allowing you to streamline your inventory, and stock only one driver for both 12 volt and 24 volt applications. By selecting the 12 volt option, you can have an output of up to 216 watts, while the 24 volt option provides an output of up to 312 watts.

Moreover, the **MEAN WELL XLG-320-V-A** is designed to work in demanding environments, making it ideal for outdoor installations with high dust, damp, and humidity levels, thanks to its IP67 rated metal aluminium casing and potting.

With a wide input range of 100-305VAC, high efficiency of up to 94.5%, and a working temperature range of -40°C to +85°C, the **MEAN WELL XLG-320-V-A** guarantees reliable and efficient performance. Available with a 5-year warranty and boasts surge protection of 6KV/4KV.

Safety is a top priority, and the **MEAN WELL XLG-320-V-A** includes standard protections for short circuit, over voltage, overload, and over temperature, offering peace of mind and ensuring the longevity of your LED lighting system.

The **MEAN WELL XLG-320-V-A** is manufactured with built-in active PFC function, which complies with EN61000-3-2 harmonic and holds global certifications per UL/CUL/TUV/CB/CE/UKCA, including UL8750, EN61347-1, and EN61347-2-13 lighting-related regulations.
