

What Are Different Types of Box Dividers & Inserts

Posted: April 26, 2022

Tags: [ventilated euro crate inserts](#), [euro box dividers \(600x400\)](#), [crate dividers](#), [correx box inserts](#), [box divider inserts](#)

The box divider insert is a breakthrough invention in the packaging sector that helps you carry products safely. [Box & Crate Dividers](#) are simple products, but they are an efficient and necessary aspect of product packaging since they protect the items inside the container. When additional packaging within the box is required, these products are used. They are used to keep oddly shaped objects stable within the box or segregate the contents.

Caterbox makes it simple to choose box dividers or crate dividers for your business because our collection includes a range of heights and compartment combinations. You can use them to organise your products while lowering space and maximising your box's internal capacity.

Correx Box Inserts

This is an excellent choice for both modest and high volume packaging things. These [Correx box inserts](#) are affordable and available in many sizes or specifications.

They are ideal for -

- Storage
- Multi-tire Packaging
- Security for the food
- Protecting lightweight glasswares

At Caterbox, 6, 8, 12, 15, 20, 24, 35, 48 Compartment Correx Plastic Box Dividers are available for you to shop. All are now in stock.
