Castle Group Offers new shopping experience

Castle Group Ltd of Scarborough has launched its brand new shop for Measuring Instruments and related bits and bobs. It can be found at www.castleshop.co.uk and offers a large range of electronic measuring instruments and accessories from Anemometers to Boroscopes to Calibrators

Simon Bull, Managing Director of Castle Group said, "This is a great development for Castle. We have always offered the ability to purchase products online, but this new venture really enables us to offer much more of what customers are actually looking for. We have a continual programme of adding new products and are determined to maintain a good purchasing experience so users can easily find what they want and buy without hassle."

The range of equipment on offer includes air-flow measurement, light meters, noise and vibration, health surveillance equipment and many other products for measuring weight, distance, time and other environmental factors. There is also an inspection and test section containing video boroscopes, PAT testing and Multimeters.

Simon also stated, "At Castle, we have a long tradition of treating customers well, and we are known for that. It is vitally important that we transfer this same ethos to the shop and everything we have done so far has been to this end."
