

## **Kimo NEW to Castle Shop!**

### **Castle Group to distribute Kimo products**

Castle Group Ltd has just been appointed as a UK official distributor for Kimo measuring and monitoring products including the all new DBM610 thermo-anemo-manometer for temperature, airflow/velocity and humidity – all in one piece of equipment.

Simon Bull, Managing Director of Castle Group said, “I am always pleased when we can offer our customers more and this development is the perfect boost to our product lines. With the Castle Shop now offering a wide range of measurement and monitoring products, the Kimo range is a very welcome edition. This is well-made equipment that does exactly what it says it is going to!”

The range of equipment on offer includes air-flow and velocity measurement, light and illuminance meters, Air quality, Humidity, Temperature, Sound, Pressure and Tachometry and everything is available to purchase on-line at [castleshop.co.uk](http://castleshop.co.uk).

Castle offer a range of products through its shop including noise and vibration meters, health surveillance equipment, inspection products and even stop-watches! This follows a trend throughout industry where customers are keen to work with fewer suppliers who can assist with more of their needs. The company also provides training courses, an equipment hire service, calibration and consultancy.

David Billington, UK distribution manager for Kimo said, “We are delighted to be able to work with Castle Group, who have a very good track record of customer service, brand recognition and generally being great to deal with. The Kimo products are well respected in industry throughout Europe and Castle is a great partner for bringing those products to the UK in earnest.”

For more information about Kimo products at Castle, telephone 01723 584250 or visit [www.castleshop.co.uk](http://www.castleshop.co.uk)
