

AIR COMPRESSOR DRYERS FOR HIRE

It's not just air compressors we hire. Discover the latest compressed air dryers available to rent from Algar Air.

TUNDRA 91

Energy consumption is a big factor when choosing a compressed air system. Thanks to improved heat transfer and their ability to minimise pressure drops and lower absorbed power, Hi-Line's Tundra refrigerant dryers support your efforts to reduce energy costs.

Hi-Line notes that the Tundra 91's 'Direct Expansion' technology "offers a constant +3°C dewpoint at all times, unlike chilled mass dryers which can be as high as +10°C" during the thermal cycle.

Filter housings included.

Model	Tundra 91		
Year	2019		
Power supply	230 / 1 / 50-60		
Capacity (cfm)	91		
Dimensions (mm)	L: 486mm	W: 395mm	H: 565mm

WHY HIRE YOUR DYER?

Because your existing dryer is out of action and you need a temporary fix until you can find a permanent replacement. Because you're hiring an air compressor and need a dryer on the same terms. Because you're looking to buy a new compressed air system and want to test some alternative setups. There are lots of reasons to hire your compressed air equipment.

And with swift service, competitive prices and decades of expertise, there are lots of reasons to hire compressed air equipment in Sheffield, Nottingham, Rotherham, Doncaster and Chesterfield from Algar Air.

CAN I BUY MY HIRE EQUIPMENT?

So happy with your compressed air equipment that you'd like to turn your hire into a permanent deal? No problem. Just ask as for a sale price.

To arrange your hire, to find out more about any of these dryers, or to find exactly the right compressed air dryer for your needs, **contact us** or call **0114 243 2347**.
