

WHY OUR ELEVATION TABLES?

3 YEARS GUARANTEE & FREE SERVICING

Included as standard for your peace of mind. **PRECISION CYLINDERS**

Single acting with pipe break valve to prevent rapid lowering in the unlikely event of a hydraulic hose failure.

UPPER LIMIT SWITCH

For easy adjustment of the lift stroke making it easy to match with a fixed level.

COMPACT HYDRAULIC POWERPACK

To save valuable space.

CIRCULAR STEEL ROLLERS

More durable compared to plastic/nylon rollers.

MAINTENANCE

in the raised position during servicing.

SAFETY TRIP BAR

Underneath the platform to prevent the table lowering in the event of obstruction, preventing entrapment and injury.

BOX STEEL CONSTRUCTION

Of the scissor arms to give superior lateral stability compared to solid steel.

TRANSPARENT OIL TANK

For easy oil level checking.

SAFETY STOPS

To support the platform

OTHER FEATURES OF OUR ELEVATION SCISSOR TABLES:
