Anti-Fatigue and Anti-Slip Matting Solutions

Matting Solutions for every situation

Engineering, Welding, Construction, Printing, Warehouse, Abattoirs, Bakeries, Counter Service, Electronics, Manufacturing, Laboratories.

- Reduce fatigue – Increase productivity
- Increase floor safety – Reduce accidents
- Improve staff working conditions
- Receive more loyalty

Ergo-Tred

– High Anti-Fatigue Properties with air cushioned design. Use in all dry standing areas.

Euro-Mat

– Non-slip checker plate easy clean surface. Underside suction cup increases traction to painted and slippery surfaces. Use for all standing areas – easy cleaning.

Comfy-Grip

– Exceptionally comfortable non-slip surface. Ideal where grease, water and oil are present.

Ulti-Mat

– Economical mat that is light and easy to handle. Use where water, grease and swarf are present.

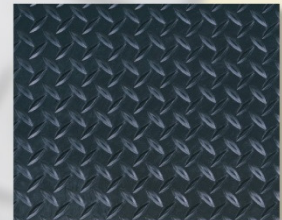

Opti-Mat

– Presents the highest degree of anti-fatigue properties from a high drainage mat. Ideal for welding or where water, oil and grease are present.

Dura-Tred

– Checker plate pattern PVC top with foam underlay, suited to assembly lines and other dry uses requiring long lengths of matting with high anti-fatigue properties

Soft-Step

– Economical and with optional static dissipative properties this mat is ideal for electronics or hazardous areas.

Hygi-Mat

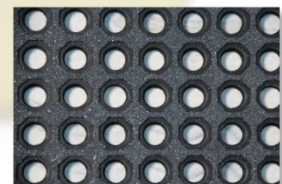

– This mat is king in the kitchen; allows drainage of water, oil and debris with unique easy clean construction.

**We also offer: Custom Shapes and Sizes
On-site analysis and reports
Measuring and fitting service
Wide range of standard sizes available**

Slip-Safe

– Interlocking matting with open or closed top surface for excellent grip in greasy oily or wet conditions. Interlocking tiles quickly and easily cover any size / shape area and also give the option to mix the surface finish.
