

Build Up To Christmas and Our Production Schedule

We're not quite in the realms of digging out the Christmas tree from the dark corners of the loft, but we are looking to prepare for our Christmas production slots.

As with many companies, Christmas is a very busy time for us. There is always a higher demand in the industry, and we are no different, with production slots being booked out earlier than usual.

We would always recommend customers place their orders as soon as possible. Even if you they are not required until a specific date in December or January, we would advise placing an order with your required date so that we can work to your schedule and book your production slot around your required delivery date. Once this slot is booked it will be **YOURS**. If a place has already been booked, we will offer other available dates.

It will be based on a first come, first served scenario. The best way to make sure that your deliveries are not affected is to place your order as soon as possible.

This is especially important for anyone who requires a timed delivery.

For customers who place orders on a monthly standing order basis, your November and December orders will not be affected, as your dates are already promised. The only delivery which may be affected is January, because of New Year's Day and our reopening times. We are happy to discuss options on a case-by-case basis and will contact you shortly.

We will be publishing our Christmas closing times shortly.
