

Thermoseal Group Named Top Contender For Top Quality Insulated Glass Components

Published: 30.11.2022

For the third year in a row, Thermoseal Group, the UK's leading manufacturer of warm edge spacer systems and distributor of over 2,500 insulated glass (IG) components, has been awarded 'Spacer Bar Manufacturer of the Year' at the 2022 National Fenestration Awards. The Group also received the accolade in 2020, 2021, and back in 2017.

Thermoseal Group won the award with the highest percentage of the open-platform votes and were announced winners at the NFA Awards event on 5th November 2022.

"Winning this award for three consecutive years is a reflection of the hard work and dedication of each member of our team. It is such an outstanding achievement" says Mark Hickox, Sales Director of The Group."

"We are overjoyed and happy to have won an award chosen by those who are directly involved with Thermoseal Group's business - our customers, suppliers, and industry contacts. It's encouraging to see that our UK-made Thermobar and Thermoflex Warm Edge Spacers, as well as our service guarantees, are exceeding expectations and prompting consumers to vote."

Thermoseal Group won the award with the highest percentage of the open-platform votes and were announced winners at the NFA Awards event on 5th November 2022.

"We would also like to congratulate all of the other award winners and finalists on their outstanding contributions to the fenestration industry. The National Fenestration Awards highlight the outstanding work being done in the industry."

"As we look forward, we remain committed to providing our clients with exceptional products and services, as well as driving innovation and excellence in the fenestration industry. Thank you again to everyone who has helped us reach this incredible milestone."

We are also delighted to announce that we were once again shortlisted for the highly acclaimed G-awards 'Component Supplier of the Year'.
