

SSE CONTRACTING RANKED NO. 2 IN TOP 50 ELECTRICAL CONTRACTOR REPORT

04.09.2013

SSE Contracting has been ranked second in this year's Top 50 Electrical Contractor Report – a comprehensive annual industry measure of the best performing electrical contractors in Great Britain.

SSE Contracting employs over 4300 highly trained staff and delivers mechanical and electrical expertise to a wide range of businesses and manufacturers from over 50 of its sites in Scotland, England and Wales.

Recent high profile projects have included PriDE, the joint venture with Interserve to manage the Defence Infrastructure Organisation's (DIO) South East Regional Prime Contract; a power and lighting replacement programme on the HMS Victory in Portsmouth and replacement of over 15,000 LED lights at the Millennium Stadium in Cardiff.

Managing Director of SSE Contracting Daron Mullineaux, said: "We are delighted to have been ranked second in this industry-recognised report. SSE Contracting focuses on delivering the very best of service by highly trained staff no matter the project's size and scale. This includes everything from simple remedial works for an independent business through to a major multi-site mechanical and electrical installation project."

"We have grown to be a truly national contractor providing local mechanical and electrical services to all industry sectors"

The Top 50 Electrical Contractor Report is produced by the Electrical Times in association with Schneider Electric and is the only report of its kind which is highly valued by contractors, manufacturers and suppliers.

Ends/

Notes to editors:

SSE Contracting is part of SSE plc and is one of the UK's largest mechanical and electrical contracting businesses and the UK's largest street lighting contractor.

SSE plc's core purpose is to provide the energy people need in a reliable and sustainable way. It is involved in the generation, transmission, distribution and supply of electricity; energy trading; the development of major renewable energy projects; the extraction, storage, distribution and supply of gas; electrical and utility contracting; data centres and telecoms.
