

GAME Engineering exhibit at Nottingham University Careers Event

GAME Engineering Ltd will join 20 leading mechanical and manufacturing companies at Nottingham University careers event.

University Park, Nottingham (PRWEB UK) 19 November 2013 -- The University of Nottingham will host the second event in the series 'Careers in Mechanical, Materials and Manufacturing' later this week. During the autumn term, the University hosts an extensive programme of fairs for engineering students attended by global companies, providing an opportunity for students to engage with industry leaders and to help local firms with their recruitment. [GAME Engineering](#) is one of twenty leading engineering companies to have been invited to the popular event and will join representatives from the following leading UK firms:

- ARUP
- Atkins
- Cummins Ltd
- DCA Design International
- Jaguar LandRover
- Johnson Matthey
- Phillips 66 Ltd
- Siemens
- Spirax Sarco Ltd
- Toyota

David Burkitt, Project Engineering Director commented:

“It can be quite a transition for engineering graduates entering industry for the first time after a lengthy period of study. Events like these are an ideal opportunity for undergraduates to obtain crucial insights about the skills required in industry to learn what employers may expect from an applicant. It’s important to bridge this gap and we are delighted to join exhibitors for the first time next month to engage with local talent.”
