BAM Construction
Richard Dewey (Project Manager)
Hayden Atkins (Senior Project Surveyor)
Anthony Brum (Senior Site Engineer)

Great Western Academy is Swindon's newest secondary school, situated in Tadpole Garden Village serving the students of North Swindon. Langley Design, situated only 5 miles from site, provided an extensive range of benching, seats, picnic tables and litter containers to the new environment. This included secure provision for the students bicycles and a stunning 8m x 8m dining canopy to match the school colour scheme. (Photos by John Seaman Photography)
