Chris Taper (Senior Surveyor)  
Chris Grant (Quantity Surveyor)

**Architect:**  
**Willmore Iles Architects - Bristol**

When Bouygues UK secured the contract to deliver Pittville Student Village in partnership with Uliving (leaders in student living and sustainable construction), they asked us to provide a fully costed street furniture solution for the various landscaping schemes and courtyards around the site. Products included benches and external dining areas, plus a large selection of secure bin store and cycle parking facilities in line with the work we had successfully completed for them at the University of Hertfordshire. The University of Gloucestershire student village at Pittville boasts ergonomic social landscaped spaces and the selection of external furniture provided sits within this scheme, helping to provide enjoyable and functional spaces for students to make use of these external areas.

EXTERNAL FURNITURE SOLUTIONS
