

VERANO UK TRENCH SPORTING THE NHS AT THE NEW SPRINGFIELD HOSPITAL TOOTING

There are several Verano Projects nearing completion and this one we are pleased to say is for the NHS #project #nhs A fan assisted trench (heating only) as so many are these days. Many thanks to Wates MEP who managed to send the pictures just as handover was progressing. Always a difficult one if the building is becoming occupied #building #hospital. All installed by SES Group Ltd, part of Wates Group as per the M&E Consultant Specification of Verano, in conjunction with Main Contractor Sir Robert McAlpine. So many more M&E Consultants #consultans and Architects #architects are becoming very conscious that Verano offer a good engineering standard at a competitive [rice, as we head into the 9th year of Verano UK's existence.

All final testing as well as Verano R&D, is done to BS EN16430 in the HLK Labs in Stuttgart. Verano is available all throughout Europe, as well as in Britain, Eire plus Canada and the USA too.
