

# Park Electrical takes over Siemens distribution partner Almeric Ltd

Announcing the Park acquisition of Almeric are as follows, John Mc Phillips and Kieran Meehan of Almeric, Rob McConachie, CEO Park Electrical and Gary O' Callaghan CEO Siemens Limited

**P**ark Electrical Services have announced the completion of the acquisition of the well-known company within the automation industry in Ireland, Almeric Ltd.

Almeric Ltd is the Siemens distribution partner for the Republic of Ireland and gives Park Electrical Services the full support of Siemens on the island of Ireland for their full range of industrial control and automation products.

Established in 1973 in Belfast, Park Electrical Services is a leading supplier of specialist electrical power, control and automation products. A commitment to both quality electrical supplies and industry-leading customer service has enabled Park Electrical Services to remain one of the industries fastest growing Power, Control and Automation technical distributor with 109 staff support in a network of established branches in Belfast, Dublin, Glasgow, Aberdeen and Wrexham.

## Value Added Reseller with Siemens

"One of the advantages of dealing with the Park Electrical Services

group is the seamless integration of quality solutions across the complete spectrum of automation, drives, power, switchgear, control gear, instrumentation and analytical equipment" says Gary O' Callaghan CEO Siemens Limited.

"As a Value Added Reseller for Siemens, Park Electrical Services receive training, support and certification in key technologies. This in turn allows Park to combine leading-edge technology from the world's largest engineering company with Park's legendary devotion to customer care" he added.

## Specialised Products

According to Rob McConachie, CEO Park Electrical "We are delighted to announce this further strengthening of our relationship with Siemens through our acquisition of Almeric. As proven technology leaders and industry experts, Siemens work closely with a select global network of partners -- to ensure that all of our customers automation, drive technology and power distribution requirements are met, everywhere and at any time".

"We specialise in industrial control, automation and switchgear

products and systems. Any products found within a modern control system can be found at your local Park Electrical Services branch. All of our staff are fully trained to support the full range of products that we sell".

"Today, Park Electrical Services is recognized as a major supplier of specialist electrical equipment, with all leading brands in stock available for purchase at our Trade Counters on site, Call our Sales Team, or purchase our products on our website [www.parkedlect.co.uk](http://www.parkedlect.co.uk).

We are proud to have been the first technical distributor in the UK and Ireland to be awarded BS5750 in 1987 and have retained a third party-verified Quality Management accreditation ever since, now operating to ISO9001:2015. This is in addition to our ISO18001 and ISO14001 accreditation for Environmental Management and Health & Safety".

A commitment to both quality electrical equipment and industry-leading customer service has enabled the PES Group to expand across the UK and Ireland to service the needs of a much broader audience.
