

Complete guide to Department For Education school toilet regulations

Read our guidance on the Department for Education school toilet regulations and how to comply.

The [Department for Education](#) is responsible for children's services and education. They work from Early Years right through to further education. It is their responsibility to ensure that the life of children in schools is safe and inclusive. Here at Bushboard Washrooms we are particularly interested in their extensive school toilet regulations that were updated in November 2020.

We have worked hard to make sure that our [Education Washroom range](#) complies with all school toilet regulations and have created a little breakdown that will explain the regulations and how we comply.

From school toilet cubicles to hand wash stations, we are able to offer a full washroom package that is tailored to your school's needs. Our team are happy to answer any questions you may have and guide you through the process to ensure that your school toilets meet regulations while still looking fun and exciting for your pupils.

Now you feel happy with the technical side why not try our [Washroom Design Tool](#) to see our education toilet cubicles come to life. Choose from our 34 laminate colours and 3 digital prints and view them in photorealistic images to see how your school toilets design will look!
