

Newhaven Holiday Park

Newhaven Holiday Park choose Bushboard for their female campsite washrooms.

Bushboard Washrooms supply new campsite washing facilities for Newhaven Holiday Park.

Newhaven Holiday Park first opened in the 1960s and has been owned by the same family ever since. Located in the Derbyshire Peak District, the caravan and camping park boasts dramatic views and idyllic walks in the countryside. With camping trips being the choice of holiday destination for many across the year, the parks director Kim Rockingham chose Bushboard Washrooms for their brand new female WC and washing facilities to help impress their visitors.

Kim told us that one of the priorities for their customers when choosing where to visit for their holidays is high quality campsite washrooms. Bushboard's **Quadro** toilet and shower cubicles offered them a stylish and robust look perfect for this environment. The range has a distinctive quadrant foot and headrail detail in light grey powder coated aluminium which adds to the unique style and strong nature of the cubicle. Both ducting and vanity units were supplied to the campsite as **Ready Plumbed Modules** meaning our **Sanceram Sanitaryware and brassware** was pre-fitted onto the panels by our factory team and arrived on site ready to install – saving both time and money. For the communal area Kim chose a **freestanding bench** and **island bench** paired with stainless steel coat hooks. The park wanted to incorporate their brand colours into the campsite toilets so selected Zest and Welsh Slate which matched this perfectly and will keep a consistent look throughout the site.

Manufactured from Solid Grade Laminate, the washing facilities will withstand the campsites high use nature. Paired with a run of **countertop basins** with a solid surface vanity top in Basalt, these facilities have been built to last and aim to impress customers for years to come. Kim trusts that the washing facilities showcase what the park has to offer as a whole so a high quality finish was important, she believes Bushboard delivered this.
