

# Why Choose Equinox Roof Systems?

Posted on [4th July 2023](#)

With Equinox Roof Systems transform your under used conservatory into a functional living space 24/7, 365 days a year.

Too hot in summer and too cold in winter? Equinox Solid Tiled Roof Systems are the answer turning your conservatory into a room. Style, versatility, energy efficiency, Equinox Roofs have it all covered beautifully. Without constant heating or cooling, traditional conservatories with glazed or polycarbonate roofs can be too cold or too hot to use all year round. Equinox solid tiled roofs are fully insulated system that enables

any occasionally used conservatory to be transformed into a welcoming living space that can be used 365 days a year.

## Hassle Free Solution

This advanced premium quality roof system has been designed for straightforward hassle-free installation onto your existing conservatory so you can look forward to minimal disruption to your home life. Equinox can be installed in as little as 48 hours. Equinox isn't just for conservatory roofs either it can be used to transform flat roofs too, whether you are building a new extension or have an existing flat roof that's ready for a change. Even porches can benefit from a contemporary makeover.

## Clever Inside – A Fully Ventilated Roof System

This multi layered roof design can transform your space and your lifestyle. Aluminium rafters in the lightweight roof have been separated from the 18mm OSB timber deck to increase the air gap. Providing a clean flow of air through the roof system. The enhanced ventilation of our system allows the roof to breathe adequately reducing the risk of any condensation Fully insulated roof design achieves U-values as low as 1.15, roughly 10 times more efficient than an A rated window. This exceptional thermal performance minimises heat loss which translates into reduced energy bills.

### **Reduce Noise and Glare**

Glass and Polycarbonate roofs produce glare in direct sunlight and become noisy during rain or hail showers. Equinox dramatically reduces these issues so you can use your space undisturbed.

## Choose Your Style

Choose from a selection of contemporary and traditional styles:

**ENVIROTILE SLATE:** – A flat, precision manufactured, recycled polymer, lightweight roof tile with an interlocking system that provides a sustainable option. Available in 4 colours.

**SLATESKIN SHEET TILES** – Authentic slate looks in half the time. 50% faster to install than steel or composite slate tiles meaning minimal disruption to your home.

**COMPOSITE SLATE TILES** – Authentic slate looks without associated problems. Made from a recyclable blend of limestone and polypropylene, composite roof slate offers authentic natural looks with out the risk of shattering, fading, warping or cracking. Available in 6 colours

**STEEL SHINGLE TILES** – Offering a simple, attractive solution, our steel tiles are made from lightweight steel, available in a choice of colours to suit your individual style and budget.
