### Service Agreements

Boiler Care

Car Breakdown Cover

Water systems agreement

So you have cover if your boiler or car breaks down and someone will come out and fix it, but what about your water system?

Could you live without clean water for a shower, washing clothes or making a cup of tea? Could you live without a working sewage system?

By taking out a service agreement with Filpumps you will be assured of not only experienced engineers and the highest quality products but you can also contact our service department at ANY time in case of an emergency.

For more information or to sign up for a service agreement please contact our service department on **01467 623010** or [service@filpumps.co.uk](mailto:service@filpumps.co.uk)

### Opening Times

### Turriff Show

Filpumps will be attending Turriff Show on Sunday 5<sup>th</sup> and Monday 6<sup>th</sup> August.

Come and visit us over the weekend to discuss any issues or queries regarding pumps, filters, treatment systems or agricultural products.

We look forward to seeing you there.

### Orkney Visit

Russell Mann and Stephen Moar will be visiting Orkney from Wednesday 8<sup>th</sup> August - Monday 13<sup>th</sup> August. They will be available for discussions and consultations on a wide range of topics such as

- Dairy Chemicals and Equipment
- Slurry Stores
- Boreholes
- Rainwater Harvesting

Russell and Stephen will also be attending the Orkney County Show, where they can be found on the Linklater Engineering stand.

For more information about where you can meet Russell and Stephen or to make an appointment please contact Russell on **07980 613149** or on [russell.mann@filpumps.co.uk](mailto:russell.mann@filpumps.co.uk)

## New Plumbing Range

Filpumps now stocks a new plumbing range of copper pipes and fittings including endfeed, solder ring, compression and valves. The plumbing range is UK manufactured and WRAS approved.

## New Capacity for Septic Tanks

Filpumps stocks shallow dig polyethylene septic tanks for domestic applications.

They come in 2 different sizes,

3080ltr for up to 6 Person residence (max 4-bed property)

4160ltr for up to 12 Person residence .

## Polytank - Loft Water Storage Tanks

Filpumps are now distributors of the Polytank range of Loft Water Storage Tanks.

The range includes a variety of tanks ranging from 12 gallons (55 litres) to 100 gallons (454 litres)

The tanks come with fixings such as snap on lids and insulation and ties and are a full and complete package. Raised ballcock chambers are also available to meet regulatory bylaw requirements.

## Harlequin Transfuel

### The only fully plastic portable Diesel Transfer Tank on the market

Designed to transport and dispense your fuel in compliance with all relevant regulations, these time saving and money saving tanks allow you to transport 430 litres of diesel (or bio diesel up to 87) by simply loading on to any suitable vehicle and delivering directly to site.

## Grundfos Sololift2 Lifting Stations... ...a new alternative to Saniflo'

Filpumps are now stocking an alternative to Saniflo. The Grundfos Sololift+ lifting stations are suitable for use in private residences where there is no natural downward slope to lead waste water directly into a main sewer.

Sololift+ can be used for

**Toilets**

**Cabinet Showers**

**Washbasins**

## Spill Containers and Bunds

Filpumps now stock a new range of spill containers and bunds for safe & secure oil and chemical storage.

Summer Promotion of Harlequin  
Fuel Storage Tanks Continues - call  
us for more details and to take  
advantage of this offer

## Private Water Supply Grants

Do you need a private water supply?

Does your private water supply quality need improving?

Have you asked your local authority for a private water supply grant?

Non means tested grants of up to £800 may be available to you from your local authority. If you have a home or business in Scotland which -

- Is/will be served by private water,
- Has private water as its only source of water,
- Needs improvement of water quality,

Then speak to your local authority to ask if you are eligible for a grant.

Contact Filpumps to find out what services we can offer you with regards to your private water supply and how we can help you improve its quality.

## How to prevent Legionnaires Disease

Following the recent outbreak of Legionnaires disease in Edinburgh there has been a spotlight on waterborne diseases such as legionnaires. Prevention of legionnaires disease and other water borne diseases include -

- Keeping your water supply properly maintained and serviced
- Keeping your water supply clean and free of impurities
- Never allowing your water supply to stagnate
- Regularly using your water systems including pipes, taps and showers.

If you are concerned about the quality of your private water supply please contact Filpumps for surveys, testing and advice on how to improve the quality of the water including

- UV Sterilisers
- pH neutralising filters
- Iron and manganese treatment filters
- Strainers
- Kiosks and covers
- Water storage tanks
