

R BAKER (ELECTRICAL) LTD

Defence & Naval Services

OUR CAPABILITIES

Building our business

OUR EXPERIENCE

- R Baker (Electrical) Ltd is a long-standing supplier to the defence sector carrying out ongoing day-to-day projects for some of the biggest names in the industry, including the Ministry of Defence, BAE Systems and Babcock Marine.
- Our multi-disciplinary teams offer in-depth experience and understanding of NATO stock number equipment which includes the manufacture and repair of a wide range of equipment.
- We are proud to have worked on some of the most prestigious projects the Ministry of Defence have been involved in. This includes being the manufacturer of the lighting transformers for the new Queen Elizabeth Class Aircraft Carriers.

THALES

OUR SERVICES

Manufacturing Services

- Military standard transformers (NSN)
- Military standard fuse panels (NSN)
- Military standard control systems
- Military standard control panels
- Manufacture of obsolete equipment
- Supply of motors, fans and pumps
- Custom-made military equipment

Repair Services

- Transformer repairs up to 1MVA
- Electronic board repairs
- Overhaul obsolete equipment
- Repair of motors, fans and pumps
- Reverse engineering capabilities
- Strip and survey reports - NSN items

Accreditations

TRANSFORMERS

We are able to design, supply, install and commission NSN codified transformers. R Baker (Electrical) Ltd has supported many major UK and international naval and land platform programmes.

Being at the cutting-edge of technology, we pride ourselves on exacting our customers' requirements both on budget and on time. As a result. R Baker (Electrical) Ltd customers commend us for our in-depth experience, broad technical expertise, long-term partnership management, impartial advice and reliability.

Range Includes:

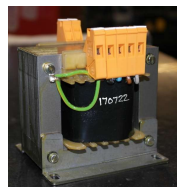

- Transformer from 100VA up to 250kVA

Features

- NSN codified transformers
- Three phase / single phase transformers
- Open type / enclosed style transformers
- Isolation transformers
- Shock-tested
- Low magnetic signature
- Degaussing compensation coils
- DefStan standards

Products

TRANSFORMER REWINDS

R Baker (Electrical) Ltd rewind, overhaul and maintenance NSN codified transformers. We have supported many major UK and international naval and land platform programmes, offering strip, survey services.

Repairing a transformer instead of replacing it can substantially reduce investment costs and provide a faster turnaround than buying a new transformer. Furthermore, to maximize the assets technical life, a refurbishment or overhaul can be an intermediate action when no failure has occurred and the ageing of the active part has reached a stage where the continued reliability of the transformer is unacceptable.

Services include:

- Rewinds up to 500kVA
- Transformer maintenance
- Strip, survey and report of codified transformers (NSN)
- Repaired to defence standards (DefStan)

MOTORS, PUMPS & STATORS

We stock a large range of electric motors, from leading manufacturers including Tec, Marelli, Brook Crompton, Entec and Weg. We can supply equivalent specification alternatives to all brands of motors, including NSN codified items.

We also offer a comprehensive maintenance and rewind service for all of your electric AC/DC motors. This service includes the overhaul and rewind of armatures and field systems.

Services include:

- Supply motors, fans and pumps.
- Armature rewinds
- Motor, pump and fan repairs
- Stator rewinds

Products

STRIP & SURVEY REPORT OF CODIFIED ITEMS

We offer full strip and survey service on NSN codified electrical items, offering full reporting. R Baker (Electrical) Ltd has supported many major UK naval platform programmes, reporting and repairing on a wide range of electrical equipment.

Services

- Equipment inspection and full strip down
- Preparation of strip and survey reports
- Fault analysis and repair
- Visual and Electrical inspection
- Overhaul existing components
- Manufacture new components
- Re-assembly and testing

Examples of Equipment

- Electronic boards (PCB)
- Control systems
- Fans (Ram Fan, Water Turbine)
- Fuse Panels
- Transformers
- Motors
- Sewing Machine
- Floor polishers
