

OCTOBER 2016

UPDATE:

Total Coating Systems are pleased to announce the arrival of two new products that will further enhance our product range.

TriTech T5 + T7

These are the latest and greatest entries into the professional airless paint spraying market.

Maxi-Miser from ASI Apollo

HVLP just got so much better.

Read below for more details or contact us now for your free demonstration.

Dont forget our fully equipped inhouse service facility for your spares and repairs. Have your machine returned, P.A.T. tested and ready for use.

Efficient spray units that painters and decorators cant afford to miss!

TriTech T5 Electric Airless Pump

The T5's sleek and practical design makes it a must have product for anyone working in the Painting and Decorating trade. It's made entirely out of raw material sourced and manufactured in the USA and boasts a lifetime warranty on the motor and drivetrain.

Apollo HVLP Maxi-Miser Model M2000

The Maxi-Miser definitely earns it's name... It's guaranteed to maximise your work-rate and efficiency on the job. It has a high transfer efficiency; average of 40 percent paint savings! Continious clean, dry air combined with excellent atomization and rapid drying makes it a great spray system to get your hands on.
