

How EverBlocks Is Helping UK Schools And UK Teachers

by Joseph Plosky July 20, 2021

I think it's safe to say that the schools in the UK, and around the world for that matter, have had an incredibly challenging past year and a half. With the pandemic, lockdown restrictions, social distancing, and students having to learn from home via Zoom and other video sharing platforms, teachers and other faculty members have been faced with some significant challenges.

Even today, with the pandemic seemingly slowing down, lockdown restrictions lifted, and the wearing of masks not required, schools are still trying to recover in time for the autumn session. Experts are saying that, while children are resilient and the UK's school systems are among the best in the world, we all need to do whatever we can to help them get back to normal and thrive in today's post pandemic society.

Custom Designed Classrooms With EverBlock Systems

Fortunately, there is [EverBlock Systems](#) and our full line of innovative, modular walls, flooring, furniture, building blocks, and more. EverBlock Systems creates a full range of products that can be configured to meet the needs of today's schools, teachers, and students.

With that in mind, we are going to take a look at some ways that EverBlocks is helping UK schools and UK teachers:

Classroom Design- social distancing should still be practiced whenever possible in the classroom and that means there is a need for easy to configure classrooms. EverBlock Systems enable schools to custom tailor their classrooms so they are safer, more hygienic, and more functional.

Team Building- because EverBlock Systems' products are configurable and modular, they can be used to create a wide range of team building exercises. Students can partner together to create workable solutions that make the classroom more efficient and productive. Then, when the exercise is over, students or teachers can reset the classroom back to its original layout.

STEM- science, technology, engineering, and maths are some of the most important subjects in today's schools. With these subjects, students can go on to be just about anything and can focus on solving many of the world's biggest issues. EverBlocks can be used as a valuable tool for STEM and STEAM exercises in the classroom. Children and use EverBlocks to count, build, design, and more and teachers can create lesson plans around the EverBlocks.
