

Sovereign Radiators: Stylish Low Surface Temperature Radiators

Finding the perfect balance between modern design and maximum functionality can be difficult.

This is especially the case when you're trying to find safe heating products for your private residence or for places like offices or car showrooms. You need to continue to protect the public but provide a more stylish aesthetic.

Designed for style and functionality, Sovereign is the latest radiator model in the Contour range and fits the brief perfectly.

Available in 4 different varieties, let's look at what each can offer.

Sovereign Floor Mounted

Acting as a more traditional option, the Sovereign free-standing [low surface temperature radiator](#) provides a safe and sleek option.

The most conventional of the Sovereign range, the floor-mounted model is the closest to a traditional radiator but with fantastic and stylish low surface temperature design features like rounded edges and honeycomb grilles.

Sovereign Free Standing

Suitable for heavily glazed areas such as corridors or conservatories, this free-standing heating option can be used to cover the plastic panel on the bottom of some interior walls.

Because it's freestanding, it can be moved into different locations in your environment with minimal disruption.

Sovereign Wall Mounted

With all the features of the other Sovereign heating models, you should opt for a wall-mounted Sovereign radiator when floor space is at a premium.

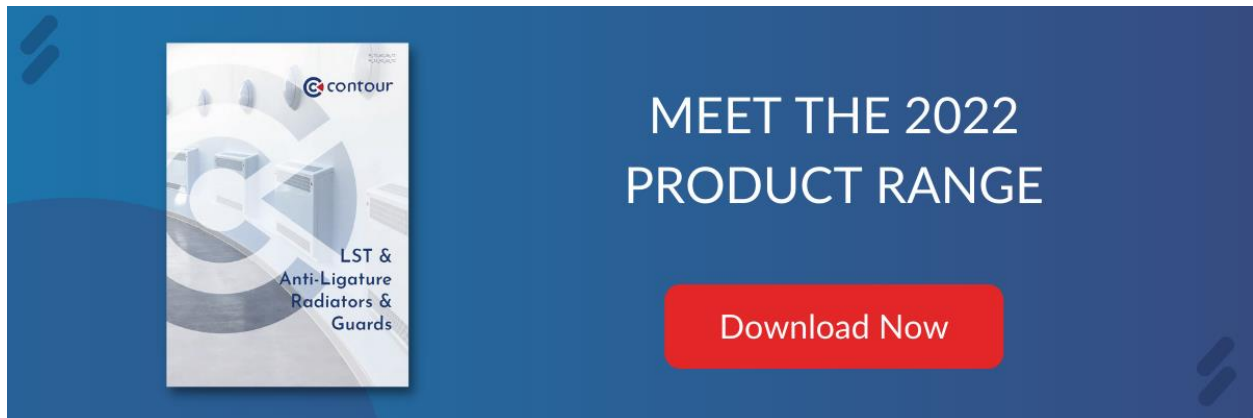

With radius edges and honeycomb grilles, Sovereign wall mounted radiators provide a safer environment without comprising the aesthetic or style of your interior setting.

Sovereign Bench

Have you ever considered combining your radiator with a seat?

Perfect for boot rooms or utilities, Sovereign's bench option does exactly that, providing a safe low surface temperature radiator with a quality wooden seating option.

This model means that you no longer have to consider traditional radiators to help heat up your surrounding environments. Instead, these unique bench options help bring life to your interior design.
