

# Albert Avenue Swimming Pool Case Study

**Our Client:** Albert Avenue Swimming Pool in Hull, has had a multi-million-pound transformation including a full rebuild of its flagship lido which closed more than 30 years ago. The £10.5 million project has seen construction of a new state of the art gym and fitness studio, as well as a refresh of the two existing indoor swimming pools. The whole building has been remodelled, refurbished and redecorated with new mechanical, electrical, heating and ventilation systems installed.

**Their Brief:** New sanitaryware was required for the whole building including the indoor and outdoor shower areas. Sanitaryware needed to be hardwearing to withstand high public use and a robust cleaning regime. Water efficiency was also high on the agenda to help reduce on-going costs and minimise environmental impact.

**Our Solution:** Our SanCeram Chartham and Marden ranges were specified for this project alongside our Inta shower panels. Our SanCeram range is hardwearing and durable as well as being cost effective. Several water saving products were also specified to help reduce ongoing water consumption.

## **SanCeram Chartham Back to Wall Toilet Pan with the Tyde OSMO® T1 Concealed Cistern**

- Durable, robust modern style Back to Wall Toilet
- Sleek smooth lines giving dirt nowhere to hide
- Paired with the Tyde OSMO® T1 concealed fully WRAS approved cistern, supplied pre-assembled for quick and easy installation
- Installed with the Tyde Piazza Dual Flush Push Button, for dual flush operation, for a full and water saving reduced flush

## **SanCeram Marden Concealed Trap Urinal**

- Sleek easy to clean Urinal
- Concealed bottle trap design
- HBN / SHTM compliant urinal bowl

## **SanCeram Chartham Exposed Trap Urinal**

- Sleek easy to clean design
- Can be installed with either a back inlet spreader for concealed cistern feed or top inlet spreader for exposed cistern feed

## **SanCeram Marden Square 460mm Semi-recessed Basin**

- Minimalistic design
- Central tap hole and overflow
- Bottom outlet for ease of maintenance

## **SanCeram Non Concussive Basin Mixer Tap**

- Press action for easy operation with temperature control
- Self-closing function ensures no excess water wastage
- Water saving with a 15 second ( $\pm$  3 sec) flow time at 1 bar pressure
- DDA Compliant

#### **Inta I-Sport Shower Panel**

- All-in-one compact design
- Back inlet connection
- Push button timed flow control & fixed shower head
- Directional control shower head with anti-lime scale rub-clean head
- Used both inside and outside the swimming pool
