

Assessment and Qualifications Alliance, Manchester Case Study

Our Client: The Assessment and Qualifications Alliance (AQA) is an independent education charity and the largest of the three English exam boards in the UK. Their qualifications are taught in schools and colleges and include GCSEs, AS and A-levels, the Extended Project Qualification and Technical Awards. They also fund cutting-edge research which supports initiatives to help young people facing challenges and realise their potential.

Their Brief: A recent renovation of the Manchester office annex building saw a requirement for sanitaryware throughout. With an open specification, it was the perfect opportunity for our SanCeram range to be used as it met all compliances and was cost effective.

Our Solution: Our stylish, economical SanCeram Chartham and Marden ranges were selected for this project. Water saving was high on the agenda for the AQA, so our Rimless WC's were the perfect solution with reduced water consumption and our Close Coupled Toilet Packs provided a dual flush cistern for a full and water saving reduced flush.

SanCeram Marden Square 460 Basin CTH with Methven Breeze Basin Mixer:

- Square, minimalistic basin ideal for modern washrooms
- Central tap hole and overflow, with bottom outlet
- Paired with stylish Methven Breeze Basin Mixer Tap in Matt Black
- Easy lever operation and WRAS approved

SanCeram Chartham Close Coupled Toilet Pack:

- Includes Chartham close coupled toilet pan, dual flush push button cistern and soft close seat and cover in one convenient pack
- Standard height and projection pan with open rim design
- 6/3ltr dual flush push button cistern with 3.75ltr effective flush volume for water saving

SanCeram Chartham Exposed Trap Urinal:

- Sleek, easy to clean urinal with exposed bottle trap design
- Can be installed with either a back inlet spreader for concealed cistern feed or top inlet spreader for exposed cistern feed

SanCeram Chartham Beyond Back to Wall Rimless WC with Tyde Reef Pneumatic Push Plate:

- Ultra sleek easy to clean WC with standard projection
- Rimless design gives bacteria nowhere to hide and reduces water consumption
- Reef Pneumatic Push Plate in Matt Black has dual flush operation for full and water saving reduced flush
