

REVAMP YOUR PREMISES WITH THESE

MUST-HAVE INTERIOR SIGNAGE SOLUTIONS

Interior signage can fulfil a host of purposes within your premises; whether it's for safety, décor, guidance or adding visual interest to your space. Regardless of the industry your brand operates in or the space that requires signage, the options are endless.

WALL GRAPHICS

Wall graphics are designs or images applied directly to a wall surface.

A popular choice for businesses and organisations looking to refresh their interior spaces because they can be a simple, small design or more complex, full-colour designs that span an entire wall.

The type of surface you want your wall graphic applied to can determine which material is required.

CUSTOM WALLPAPER

The perfect way to incorporate a fun and playful atmosphere or express your brand personality; custom wallpaper is a great example of reinforcing your brand identity through a long-lasting interior design option.

Unlike traditional wallpaper, this option allows for a personalised design. With the use of harder-wearing materials, it can also be easier to clean and maintain, making it a practical and low-maintenance option for interior design.

RECEPTION SIGNAGE

Typically used to immerse visitors in your brand, welcome them to the premises and provide information about products or services, reception signage is one of the first cultural identifiers your visitors and staff will see when they enter your premises.

Reception and entrance area signage is a great way to create a positive and lasting first impression as well as an inviting and enticing reception area.

WAYFINDING

A visual aid to guide staff and visitors through your building, wayfinding can be symbols or wording to help navigate complex environments or just point in the direction of the toilets!

Commonly overlooked, wayfinding helps reduce stress and confusion, improving the overall satisfaction for visitors to the premises.

Wayfinding signage is about navigation but can introduce a brand's unique personality, contribute to storytelling, and invoke the emotions of your visitors.

ARCHITECTURAL FINISHES

Architectural finishes offer a myriad of patterns, textures, and effects that can transform any surface, infusing your premises with design, comfort, and style.

The beauty of architectural finishes is that they are tailored to your specific needs and preferences, as well as the unique characteristics of your premises.

Whether you're looking to reduce the glare from the sun, improve the acoustics of your space, or simply give your interior a fresh new look, architectural finishes can be customized to meet your objectives.
