

# THE COMPLETE GUIDE TO INTERIOR VINYL WRAPPING

Ever looked at your interior space and thought it needed a refresh but were worried about the time and cost implications? Vinyl wrapping could be just what you are looking for and is often referred to as architectural finishes in the signage industry.

This form of modification allows you to resurface instead of replace furniture within your business. Vinyl can be applied or wrapped to a range of surfaces from desks, doors and feature walls to countertops, washrooms and windows.

Vinyl wrapping is a more cost-effective and environmentally friendly option when considering refurbishing rather than replacing. In today's throw-away society we are becoming increasingly aware of our impact on the world and how we can reduce waste and costs.

## WHAT ARE ARCHITECTURAL FINISHES OR VINYL WRAPS?

By using patterned and textured vinyl you can change the look and feel of many surfaces to create a completely new design or theme. With over 1500 patterns, textures and effects available architectural finishes are an ideal, cost-effective solution for any business.

Vinyl wrapping is becoming more and more popular, certain sectors such as professional service and hospitality and leisure are increasingly seeing it as a versatile option for a refurb project.

## CAN FURNITURE BE VINYL WRAPPED?

wrapping lobbies and bedroom furniture to create a fresh look.

Alongside wrapping furniture, you can also apply vinyl to walls, either as wallpaper or graphics with designs, wording or logos. The options don't stop there as we can also apply vinyl to glassed areas, both internally and externally. Whether you're looking to use window film to create a decorative element or increase privacy and ensure health & safety compliance we can work with you to create the ideal solution.

# WHAT ARE THE BENEFITS OF VINYL WRAPPING?

If you are looking to create a feature wall, refresh your desks, upgrade your counters or brighten your washrooms, we can work with you to create a new look for your areas.

Recycle – Refresh existing surfaces instead of replacing them.

Reuse - Upcycling your interiors not only reduces costs but also unnecessary waste that may end up in a landfill.

Customise – Create bespoke interiors with a big range of textures and finishes.

Business as usual – With minimal installation disruption your business can stay open during a refurbishment.

Save – Vinyl wraps have been shown to be a cost-effective solution to achieve the same look as more costly materials.

## WHAT TYPES OF VINYL WRAPS ARE THERE?

With a huge range of architectural films available, there are so many choices to create your desired look and feel.

### Wood

Wood finishes are particularly on-trend with hundreds of options from oak to teak and ash to walnut. Vinyl films are textured, with both horizontal and vertical grain patterns available to best suit your fixtures and fittings.

### Stone

Create an incredibly stylish space with stone finishes. From countertops to feature walls these high-end finishes are the epitome of style at a fraction of the cost of the real deal.

Marble finishes in particular are an ideal way of promoting luxury and come in a vast array of colours and grain patterns. If you are after a more industrial look, our textured concrete or brick finishes are just what you are looking for.

Different textures and textile finishes can introduce a whole different dimension to your internal spaces. For an innovative way of customising your interiors, there are a range of textile coverings that create different personalities for each room.

Leather or woven fabrics add another layer of warmth, while linen brings a cosy element.

#### **Metallic**

Our metallic finishes are particularly popular as they breathe new life into existing signage or create real feature elements for your branding. Eye-catching and certainly on-trend, you can wrap practically anything in your chosen alloy.

Our metallic finishes are extremely durable, meaning less upkeep. From copper to brushed steel, rust to chrome, transform your bar, reception or showroom.

#### **And much more...**

Of course, this is only a spotlight on some of the most popular products, there are plenty more choices if you're looking to push the boundaries...

For example, coloured finishes are a fantastic way of adding another dimension to your interiors with trendy pops of colour, high gloss surfaces or sophisticated matte coverings.

If you are looking to take things to the next level, why not also consider our impactful glitter or striking carbon fibre finishes.
