

Case Study | Safeguard P.H.M.E

Safeguard P.H.M.E Limited proudly specialise in the design, installation & maintenance of both domestic, commercial & industrial gas installations. With over 15 years of gas engineering expertise, they pride themselves on being one of the country's leading independent gas engineering companies.

Stylish • Modern • Executive

Safeguard wanted an executive look in their office space. The E-10 Range of executive office furniture was a perfect choice as it created a sleek look with the ebony wood finish paired with the Anthracite leather in-lay.

The E-10 boardroom created a centerpiece for Safeguard's meeting room, setting the scene for important business meetings for a proactive, successful company. What a first impression this office design will make on new associates!

To compliment the E-10 Range they chose black leather effect chairs to complete the high-end design. The M-Form chair in the main office kept that boss look whilst still maximising comfort for the user. Don't forget about the Aria leather meeting chairs which finalised the boardroom's eye-catching vision.
