

Seashell Royal Manchester School

Seashell Royal School Manchester is a special needs school, offering outstanding education and care for students aged 2-19. They provide tailored care, supporting people with learning difficulties, disabilities, complex health needs and autism. We had the pleasure to supply our washroom products to their brand new school building which includes state of the art swimming pool and hydrotherapy pools.

Brief: Royal Manchester School needed the whole package; cubicles, IPS ducting, lockers and benching for WC's and changing rooms.

Solution: Our Splash cubicles were the perfect choice providing the WC areas and the changing room's with water resistant and durable cubicles. Our PDQ Panel & Frame system was chosen to complement the Splash cubicles. Finishing off the project our Aquasafe lockers and Aquabench were the perfect finishing touch.

Splash Cubicles:

- Splash provides a modern design, with set-back pedestals creating a floating appearance
- Made of Solid Grade Laminate a robust, water and vandal resistant material– able to withstand the test of time
- Ideal for high traffic areas
- All divisions and pilasters fixed with U channels for quick and easy installation whilst also providing a sleek look and finish
- Splash features our slide operated indicator bolt with emergency release facility so it's a safe and reliable choice for Royal Manchester School.
- Available in over 30 laminate colours, you can match your cubicles to our PDQ Panel & Frame, lockers and benching as Royal Manchester did for a seamless look throughout.

Aquasafe Lockers and Aquabench Seating:

- SGL 1-4 tiered lockers with ASSA locks
- Hard-wearing and water-resistant Solid Grade Laminate carcass and doors
- Pre-assembled for ease of installation
- Size and configuration flexibility
- Range of locking mechanisms including keypad locks specially developed to meet the needs of each individual washroom
- To complement the Aquasafe Lockers, Aquabench seating was chosen to complete the changing rooms. Delivering durable changing room benches and a practical seating solution, Aquabench offers a choice of flexible styles and seating options

PDQ Panel & Frame:

- Solid Grade Laminate for reliability and durability
- Quick and easy installation
- Twice as quick to install compared to traditional timber frames
- Panels arrive labelled and pre hung for ease
- Lockable top panel for extra security
- Available in over 30 laminate colours so you can match your duct panels to your cubicles
