Camlab Honoured with Feefo Trusted Service Award for 2024

Camlab, a leading provider of laboratory equipment and supplies, is thrilled to announce that it has been awarded the prestigious Feefo Trusted Service Award for 2024. This recognition underscores Camlab's unwavering commitment to excellence in customer service and satisfaction.

Feefo, a trusted global feedback platform, awards the Feefo Trusted Service accolade to businesses that consistently deliver outstanding customer experiences. The award is a testament to Camlab's dedication to providing exceptional service and quality products to its customers in the laboratory and scientific community.

"We are incredibly proud to receive the Feefo Trusted Service Award for 2024," said Ben Sunderland, Managing Director of Camlab. "At Camlab, we prioritise customer satisfaction above all else, and this recognition is a reflection of our team's hard work and dedication to exceeding our customers' expectations."

Feefo's Trusted Service Award is based on genuine feedback from verified customers, reflecting their experiences with a company's products and services. Camlab's consistent high ratings and positive reviews demonstrate its commitment to delivering superior solutions and support to its valued clientele.

Camlab's dedication to customer satisfaction, coupled with its extensive range of laboratory equipment, consumables, and expertise, has solidified its position as a trusted partner for laboratories across various industries.

Of course, getting high ratings is one thing but Camlab also accept that things can go wrong so we monitor our Feefo feedback every day. If a customer has had an issue, our team make a concerted effort to contact them immediately and resolve the issue to the best of our ability. We believe getting it right at the outset is important but getting it right when it's gone wrong is paramount.
