

22MM PUSH BUTTON SWITCHES

We have added a new range of **22mm push button switches** to our profile. These are stylish and durable products with **12V and 24V LED** illumination. The lamps are bright, ensuring they are easily noticed on large industrial applications and smaller consumer products.

Supplied with a polycarbonate silvery frame around the button, these products not only look good but are also manufactured to a high-quality standard. The lamp life is around 40,000 hours and the electrical life is greater than 50,000 cycles. Installation is quick and simple as they are panel mount and easily integrated into a circuit. When fitted, the front frame of the push button raises less than 2mm above the panel.

These 22mm push button switches are **IP65** rated so you can be sure they are safe from dust and low-pressure jets of water.

Switch Configuration Options:

Lamp Voltage	Switch Action	Contacts	Colour	Shape
	Latching	1NO/1NC	Red	Round

We currently stock round 22mm push button switches in Red, Green, Orange and Blue. Rectangular and Square options are available with low minimum order quantities and a lead-time of around 6-8 weeks. This also applies to the White and Yellow colour options.

For technical data, please view the products on our website –

You can download individual data sheets from the product pages which show the dimensions of the switch, installation dimensions, the circuit diagram and specific technical information.

22mm Panel Indicator Lights

As part of this range, we also stock 22mm panel indicator lights. For more information on the indicator lights, please click on the above image which links to [our website](#).

Advantages Of A Push Button Switch

-
- › Low power consumption

We are a specialist supplier of switch products and have a thorough understanding of the products we supply. Over the years we have developed strong relationships with our preferred manufacturers, enabling us to provide a high level of technical assistance and customer service.

By adding these new 22mm push button switches to our range we can offer our customers an even greater choice at competitive prices.
