

BERKER SWITCHES

Berker Switches – Switch Products You Can Rely On

As a brand under the Hager Group, Berker has established a reputation for producing high-quality, stylish and technologically advanced switches that cater to both residential and commercial environments. The company's commitment to innovation, design, and functionality has made Berker switches a preferred choice for those seeking reliable and aesthetically pleasing electrical components.

One of the key features that set Berker apart is their emphasis on design. Berker places a strong focus on creating switches that not only serve a functional purpose but also enhance the overall aesthetics of the application into which they are designed. The switches are available in a variety of styles, finishes, and colours, allowing customers to choose options that complement their design preferences. Whether it's a modern, minimalist look or a more traditional style, Berker switches are designed to seamlessly integrate into diverse settings.

In addition to their aesthetic appeal, these products are known for their superior build quality. The brand employs high-grade materials in the manufacturing process, ensuring durability and longevity. The switches are crafted to withstand the rigors of daily use, providing a reliable and robust solution for controlling lighting, appliances, and other devices.

Alan Butcher Components is the UK distributor and agent for the Berker Integro range of products. The Integro range is designed specifically for where space is a premium. This includes applications such as:

- > The mobile living market – caravans, campervans & boats
- > Laboratory
- > Medical
- > Kitchen, Bathroom & Office furniture
- > PAT testers
- > Distribution boxes
- > Cleaning equipment

They have designed switches specifically for the mobile living market such as the awning and step switches below:

Reverse Polarity Switch

Code: 9-3695-25-XX

5 contacts, step and arrow printing

Reverse Polarity Switch

Code: 9-3696-25-XX

4 contacts with imprint for awnings

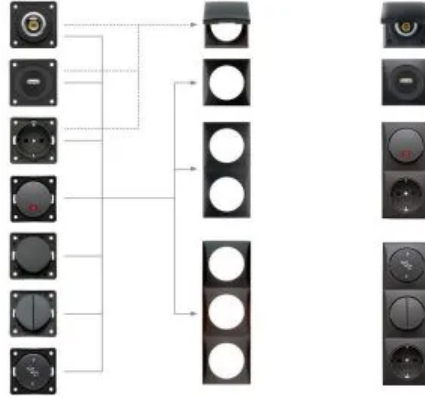

Berker Integro switches are available in a variety of colours and a matt or glossy finish. To review the options available, download the Berker catalogue from our website using the following link –

Switch products are on pages 56 to 62 of the catalogue.

The switch products are part of a modular concept as described below:

The switch, socket and frames are interchangeable ensuring continuity of design and extensive choice to the end user. The frames conveniently snap fit over the switch mounting plate. They are also easy to remove once fitted.

As mentioned, Berker switches stand out as a reliable and stylish choice in the realm of electrical switches. Their commitment to design, quality, innovation, and energy efficiency positions them as a leading player in the industry. Berker offers a diverse range of products to suit various preferences and requirements.
