

AdGrind Expands! Now Exclusive Agents for BLOHM JUNG in South UK

The advertisement features a large image of two white Blohm Jung grinding machines. The machine on the left is labeled 'NEW' in red text. The AdGrind logo is in the top right corner. Below the machines, the text 'Exclusive agents in the south UK for' is followed by the 'BLOHM JUNG' logo. A blue banner at the bottom contains contact information for Advanced Grinding Supplies Ltd and a list of partner companies: Studer, Meister Abrasives, Schmeier, Technica, and Bruckner.

STUDER | **Meister Abrasives** | **SCHMEIER** Präzision als Prinzip | **technica** technology gmbh | **BRUCKNER**

For over 20 years, Advanced Grinding Supplies Ltd (AdGrind) has been at the forefront of precision grinding in the UK. As exclusive agents for **STUDER** since 2003, and with Managing Director Peter's extensive background as a Studer service engineer for 6 years before launching AdGrind, we've built a reputation as the go-to experts in cylindrical grinding.

Now, we're expanding our offering even further! As of January 2025, AdGrind is now the exclusive sales agent for **BLOHM JUNG** in the South UK, bringing world-class **surface and profile grinding machines** to our customers.

More than Just Machines!

We Are Your Complete Grinding Partner

At AdGrind, we provide far more than just CNC grinding machines. We supply a complete range of grinding solutions, including:

- **Meister Abrasives & Alfons Schmeier Abrasives** – High-performance vitrified CBN & diamond wheels and dressing tools

- **Karl Bruckner GmbH** – High-precision live & dead centres and face drivers for ultimate work holding accuracy
- **Technica Technologies** – Precision centre hole grinding machines to ensure accuracy before grinding
- **Saint-Gobain Abrasives** (Norton, Flexovit, Winter, Baystate) – Market-leading abrasive solutions for grinding and dressing
- **Coolant Filtration Solutions** – Large stocks of non-woven filter media (filter paper) for all types of filtration systems
- **Dressing Tools** – Our own range of natural diamond & synthetic dressing tools to fit all machine types

Why BLOHM JUNG?

BLOHM and **JUNG** have been industry leaders in surface and profile grinding for decades. Originally two separate brands, they merged into **BLOHM JUNG GmbH** and now operate from a state-of-the-art facility in Hamburg, Germany. Their machines are known for precision, reliability, and cutting-edge technology, perfectly complementing our existing range of **STUDER CNC Cylindrical Grinding Machines**.

Why Choose AdGrind?

We don't just sell machines! we provide expertise, technical support, and industry-leading tooling to keep your grinding operations running at peak performance. Whether you need CNC cylindrical, surface, or profile grinding, or the abrasives, dressing tools, and filtration solutions to support them, we have everything in one place.
