

THERMOSAFE® Stock Packs

The **Thermosafe®** is normally supplied in **three standard packs**, the most suitable of which will depend on the type of application. **Each pack can be tailored** to individual heating requirements, control preferences, handling options and budget.

All three packs can be supplied with a choice of base heaters for both EX hazardous area and safe/ordinary area applications. Extended warranties and additional accessories such as Forklift Lifting Bars, Soft Top-Hat covers, temperature probes, roving controller stands and Ex junction housings are also available.
