

# Bergmann Jumbo Roll Packers

With compaction ratios of up to 5:1 in an open skip, Bergmann Jumbo Roll Packers are an excellent choice for breaking down and compacting bulky waste materials such as pallets and wood. It's also the perfect piece of machinery for helping you save money on your waste disposal and labour costs. The concept has been copied by other manufacturers, but in our opinion, the Bergmann roll packer is not just the original but also still the best.

Kenburn has been selling Bergmann machinery for 35 years and has the most experience to help you make the right decision for your business to reduce your waste handling costs. We can provide you with the support and advice you need.

We offer free site surveys anywhere in mainland UK. So, if you're looking to buy or rent a [Bergmann Jumbo Roll Packer](#), or

another machine from our carefully chosen range of high quality waste compactors and balers, please contact us now to discuss your waste handling requirements.
